Dear Parent/Caregiver

Our Public Health Nurse, Judi Harding, will be visiting Martinborough School on a regular basis.

Judi will be available for free advice on health issues and to promote good health within the wider school community. Judi will also be available to see your child/children, with your consent, for any health concerns you or the teachers may have. This service will be available to Martinborough School students from the second week of the first term, during the school term.

Following assessment, Judi will advise and assist families to access appropriate advice and/or intervention.

No child/children will be seen at school without parental/guardian consent unless there are serious concerns about a child's health, or if their health may have a negative impact on other children's health.

Please complete the form below and send back to the school office.

Principal

I consent to my child/children being seen at school by the Public Health Nurse

I do not consent
