Letter to Parents

Fonterra Milk for Schools

This letter is to inform parents that Fonterra Milk for Schools is at Martinborough School. Students will receive the opportunity to drink a 180ml carton, four days a week. Milk is an important building block for good nutrition for all of our students, and this is a fantastic opportunity to ensure our kids have that input into their day. Fonterra is using UHT (Ultra Heat Treated) milk, ensuring a consistent quality as well as eliminating potential health issues.

There is no cost to the school as the milk, the refrigerating, and the recycling of the containers, have all been accounted for by Fonterra. This is a purely voluntary process and hope you decide to take up this opportunity.

Regards

Craig Nelson
Principal
